

Confirmation for sample labeling

Herewith we confirm, that the reference materials we are selling are produced under following company names:

- Alusuisse Ltd.
- AL (Alusuisse Lonza Ltd.)
- Alcan Ltd.
- 3A Composites Ltd.
- Suisse Technology Partners Ltd.

Additionally we sell samples of the former company Aluminium Pechiney Ltd. after they became part of Alcan Ltd.

The period of time for selling such reference material can be very long. So we still sell samples with the logos "Pechiney", "Alusuisse", "AL" and "3A Composites". As we are responsible for the values of the certificates, they are named with Suisse Technology Partners Ltd.

The correlation between the certificate and the sample is always ensured via the sample name (e.g. 121/06); no matter which company label is written on the top of the sample.
